PRESENTACIÓ

El propòsit principal d'un Butlletí de Sumaris és la màxima difusió de la informació actualitzada que proporcionen les publicacions periòdiques. El Butlletí de Sumaris del COEC aplega, mensualment, els sumaris de les revistes d' Odontostomatologia i de matèries afins que es reben a la Biblioteca.

En cada número es dona la relació dels títols d' aquestes revistes a continuació de la presentació. Els sumaris estan ordenats, al Butlletí, alfabèticament pel títol, essent també accessibles per la matèria general de la revista mitjançant l'Index de Matèries del Butlletí.

Aquesta eina bibliogràfica permet aproximar el perfil d'interès del lector al contingut de les principals publicacions periòdiques d'Odontostomatologia, sense necessitat d'estar-hi subscrit. Totes les revistes relacionades es troben a la Biblioteca, de manera que l'usuari pot demanar, si li interessa, còpia de qualsevol dels articles citats.
