

PRESENTACIÓ

El propòsit principal d'un Butlletí de Sumaris és la màxima difusió de la informació actualitzada que proporcionen les publicacions periòdiques. El Butlletí de Sumaris del COEC aplega, mensualment, els sumaris de les revistes d'Odontostomatologia i de matèries afins que es reben a la Biblioteca.

En cada número es dóna la relació dels títols d'aquestes revistes a continuació de la presentació. Els sumaris estan ordenats, al Butlletí, alfabèticament pel títol, essent també accessibles per la matèria general de la revista mitjançant l'Index de Matèries del Butlletí.

Aquesta eina bibliogràfica permet aproximar el perfil d'interés del lector al contingut de les principals publicacions periòdiques d'Odontostomatologia, sense necessitat d'estar-hi subscrit. Totes les revistes relacionades es troben a la Biblioteca, de manera que l'usuari pot demanar, si li interessa, còpia de qualsevol dels articles citats.

REVISTES INCLOSES EN AQUEST BUTLLETÍ

- Acta odontologica Scandinavica
- American Jnl. of Orthodontics & Dentofacial Orthopedics
- Angle Orthodontist
- Avances en Odontoestomatología
- Avances en Periodoncia e Implantología oral
- British Dental Journal
- Clinical Oral Implant Research
- Dental Abstracts
- Dental Economics
- Dental Materials

PRESENTACIÓN

El propósito principal de un Boletín de Sumarios es la máxima difusión de la información actualizada que proporcionana las publicaciones periódicas. El Boletín de Sumarios del COEC reúne, mensualmente, los sumarios de las revistas de Odontoestomatología y de materias afines que se reciben en la Biblioteca.

En cada número se da la relación de los títulos de estas revistas a continuación de la presentación. Los sumarios estan ordenados, en el Boletín, alfabéticamente por el título, siendo también accesibles por la materia general de la revista mediante el Indice de Materias del Boletín.

Esta compilación bibliográfica permite aproximar el perfil de interés del lector al contenido de las principales publicaciones periódicas de Odontoestomatología, sin necesidad de estar suscrito a ellas. Todas las revistas relacionadas se encuentran en la Biblioteca, de manera que el usuario puede pedir, si le interesa, copia de cualquier artículo citado.

CONTENTS

COVER

On the cover: In a preliminary study, researchers from the University of North Carolina assessed a new treatment approach for correcting maxillary deficiency. Using new methods to register superimposition, it was possible to compare changes by creating 4 different models, representing the soft tissue, the hard tissue, the maxilla and mandible only, and the cranial base. The initial and registered final models were superimposed to show treatment changes, which are graphically expressed with color maps. The pleasing smile belongs to Darlean Jeaken, treated by Dr. John E. Bilodeau, Springfield, Virginia.

EDITORIAL

- Need and demand for orthodontic services: The final report** 151
David L. Turpin, Editor-in-Chief, Seattle, Wash

Temperature rises during tooth bleaching

Unseen alcohol damage revealed in new NHS campaign p149

Oral health of disadvantaged groups p151

BDJ

BRITISH DENTAL JOURNAL
incorporating DENTAL BUSINESS

COVER IMAGE

TEMPERATURE RISES DURING TOOTH BLEACHING

The series of cover images featured in this volume of the Journal represent the 12 most highly cited papers published in the BDJ between 2004 and 2009. The image on the cover of this issue represents the paper 'Surface and intra-pulpal temperature rises during tooth bleaching: an in vitro study' by M. Sulieman et al., which had been cited 24 times at the time of going to press.

Sulieman M, Addy M, Rees J.S. Surface and intra-pulpal temperature rises during tooth bleaching: an in vitro study. Br Dent J 2004; 196: 279-282.

Effects of erosion and abrasion on dentine

Check-ups for winter games athletes p201

Dental executive appointed p202

COVER IMAGE

EFFECTS OF EROSION AND ABRASION ON DENTINE

The series of cover images featured in this volume of the Journal represent the 12 most highly cited papers published in the BDJ between 2004 and 2009. The image on the cover of this issue represents the paper 'The surface effects of erosion and abrasion on dentine with and without a protective layer' by A. Azzopardi et al., which had been cited 20 times at the time of going to press.

Azzopardi A, Bartlett D W, Watson T F, Sherriff M. The surface effects of erosion and abrasion on dentine with and without a protective layer. Br Dent J 2004; 196: 351-354.

We Need Your Photos!

If you have a photograph that you would like to see on the cover of *Dental Abstracts*, please send us a print or slide for consideration. Appropriate photographs should have a vertical orientation. Please submit your photographs to *Dental Abstracts*, Attn: Jane Ryley, Periodicals, Elsevier, 3251 Riverport Lane, Maryland Heights, MO 63043. Tel: 314-447-9226. When submitting your photographs, please be sure to include your telephone number and e-mail contact information.

Notes

To facilitate the use of *Dental Abstracts* as a reference tool, all illustrations and tables included in this publication are now identified as they appear in the original article. This change is meant to help the reader recognize that any illustration or table appearing in *Dental Abstracts* may be only one of many in the original article. For this reason, figure and table numbers will often appear to be out of sequence within *Dental Abstracts*.

Standard Abbreviations

The following terms are abbreviated: acquired immunodeficiency syndrome (AIDS), human immunodeficiency virus (HIV), and temporomandibular joint (TMJ).

DENTAL MATERIALS. Volume 26, Issue 2, Pages 105-192 (Feb. 2010)

Interfacial toughness of bilayer dental ceramics based on a short-bar, chevron-notch test *Pages 111-117*

Chuchai Anunmana, Kenneth J. Anusavice, John J. Mecholsky Jr.

Composite resin reinforced with pre-tensioned glass fibers. Influence of prestressing on flexural properties *Pages 118-125*

Luís Henrique Schlichting, Mauro Amaral Caldeira de Andrada, Luiz Clóvis Cardoso Vieira, Guilherme Mariz de Oliveira Barra, Pascal Magne

Strengthening of a model composite restoration using shape optimization: A numerical and experimental study *Pages 126-134*

H. Li, X. Yun, J. Li, L. Shi, A.S. Fok, M.J. Madden, J.F. Labuz

A practical and systematic review of Weibull statistics for reporting strengths of dental materials *Pages 135-147*

Janet B. Quinn, George D. Quinn

Influence of LED irradiance on flexural properties and Vickers hardness of resin-based composite materials *Pages 148-155*

G.S. Bhamra, G.J.P. Fleming, B.W. Darvell

Design features of a three-dimensional molar crown and related maximum principal stress. A finite element model study *Pages 156-163*

Brian T. Rafferty, Malvin N. Janal, Ricardo A. Zavanelli, Nelson R.F.A. Silva, E. Dianne Rekow, Van P. Thompson, Paulo G. Coelho

Effect of liquid rubber additions on physical properties of Bis-GMA based dental resins *Pages 164-168*

Francis K. Mante, Rose O. Wadenya, Daniel A. Bienstock, Jared Mendelsohn, Edward E. LaFleur

Reinforcement of resin based cement with titania nanotubes *Pages 169-178*

S.M.Z. Khaled, Richard J. Miron, Douglas W. Hamilton, Paul A. Charpentier, Amin S. Rizkalla

A novel experimental method for the local mechanical testing of human coronal dentin *Pages 179-184*

Daniel Ziskind, Sharly Fleischer, Kaiyin Zhang, Sidney R. Cohen, H. Daniel Wagner

Mechanical properties and bonding of maxillofacial silicone elastomers *Pages 185-191*

Muhanad M. Hatamleh, David C. Watts
