Opportunities in The Netherlands for Spanish Dentists

INTRODUCTION

We are looking for Spanish dentists who want to start a new life in the Netherlands and are willing to learn the Dutch language in order to do so.

Besides obtaining a full-time job, my client offers you an intensive Dutch course of 3 months in the picturesque Hotel Wetterstein in Austria. Also, you will be serviced with all the paperwork before, during and after the completion of the course, so you have a smooth incorporation into Dutch society.

REQUISITES

- European degree in Dentistry (Licenciatura en Odontología).
- A minimum of 2 years of relevant experience, after graduation.
- Be a representative and communicative person, who loves adventure.
- Very good level of English and preferably a third language.
- Availability for a long stay.

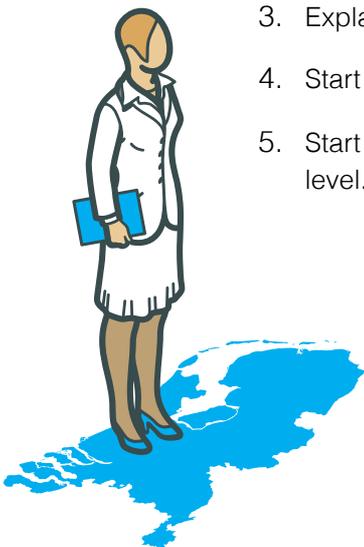

THE OFFER

- A full-time job for at least 3 years.
- A Dutch course of 3 months, everything included, in Austria.
- Flights, transport, etc.
- Help with the paperwork, housing, registration, etc.
- Personal guidance during the whole process.

STEPS TO TAKE

1. Interview by Skype (usually, within one week after applying). Partly in Spanish, partly in English.
2. Interview session in Barcelona in June/July.
3. Explanation of the contract and conditions.
4. Start the Dutch course in August/September.
5. Start to work in a clinic in the Netherlands after finishing the course at a B1 level.

SALARY AND COSTS

The guaranteed salary is a net 2500,- euros per month, for a 40 hour work week. After the first year, you can decide to become an *autónomo* and probably earn something more. This is your own choice, although the clinic can help you with this.

N.B.: The clinic finances the whole project and guides you during three years. To do so, part of your salary will be used to guarantee their investment of time and money. However, this is already discounted in the above stated salary, and the amount of 2500,- is the amount you will be earning after the discount of the course and of taxes.

IN SUMMARY

We are looking for professional dentists who are willing to improve and ready to invest in themselves via a very intensive Dutch course and a project of many years of working in a Dutch clinic. Bear in mind that this is a radical life changing event and not to gain some experience and *enjoy a new language and culture* for a year or so.

So, do you believe you are the one we are looking for and do you enjoy the idea of a new adventure in the Netherlands?

Please, do not hesitate and write us a letter, explaining why you think this project might be for you, and add your CV. You can send your application to Arjen Versteeg (arjen.versteeg@dpa.nl), and we will invite you to have a Skype-interview.
